

Lorquin's Admiral (*Limenitis lorquini*)

Red Admiral (*Vanessa atalanta*)

Western Tiger Swallowtail (*Papilio rutulus*)

Buckeye (*Junonia coenia*)

Cloudless Sulphur (*Phoebis sennae*)

Sara Orangetip, male (*Anthocharis sara*)

All butterflies and plants showcased in the ENC Butterfly House are commercially raised Orange County natives. The ENC does not recommend nor condone the collection of animals or plants from the wild. This guide is intended to help you identify species within the ENC Butterfly House. The presence of different butterfly species in the Butterfly House is dependent on availability, weather, and climate.

The ENC thanks the photographers whose work appears here:
Peter J. Bryant, Carol Freeman, William Harader, image14webshots.com,
David Larson, Dick Locke, Colin Stringer, UC Davis, and Ron Wolf.
